rehanaputri80@gmail.com | 081234436974 | Surabaya, Jawa Timur 60117
Rehana Putri | Website Portofolio | rehanasalsabilla | @rrehanaa_

Information Technology student specializing in **Artificial Intelligence** and **Machine Learning** with foundation in **Data Analysis** and predictive modeling. Skilled in developing machine learning models and data-driven solutions using Python, SQL, Scikit-learn, TensorFlow, and PySpark. Interested in contributing to data and AI-driven projects while continuously expanding technical and analytical expertise.

EDUCATION

Bachelor of Information Technology student 2022 – Present | GPA : 3.69 / 4.00
Institut Teknologi Sepuluh Nopember (ITS)
Relevant coursework : Artificial Intelligence, *Data Mining, Machine Learning , Big Data, Statistical Analysis.*

Science major, *SMA Negeri 1 Kauman* 2019 – 2022

PROFESSIONAL EXPERIENCE

Information Technology Department (ITS), 02/2024 – 07/2024
Assistant Lecturer – Enterprise Architecture
- Assist in delivering enterprise system architecture concepts and guiding students in system design analysis.
- Supported assignment evaluation and technical discussions on large-scale information systems.

Dinas Komunikasi dan Informatika Kabupaten Madiun, 01/2025 – 03/2025
Full Stack Developer Intern
- Developed and maintained government service website using Vue.js, MySQL, and Implemented RESTful CRUD operations
- Collaborated using Git for version control and team-based development workflows.

Kimia Farma x Rakamin Academy, 03/2026 – Present
Big Data Analytics Project-Based Intern
- Analyzed one-year sales data to identify revenue trends and product performance insights.
- Performed data preprocessing and exploratory data analysis (EDA) on raw transactional data.
- Developed an interactive sales dashboard to support data-driven business decisions.

Bootcamp Data Analyst & Business Intelligence, 03/2026 – Present
Cerelates - CAMP Batch 4
- Learn the data analysis process: data cleaning, data exploration, and interpretation to support business decisions.
- Using data analysis tools such as SQL, Python, Excel, and Power BI.
- Working on case studies to generate business insights and data visualizations.

PROJECTS

Animals Image Classification, *Deep Learning Project (Python, TensorFlow, Keras)*
- Built a CNN-based image classification model using EfficientNetB0 with fine-tuning.
- Performed data preprocessing, augmentation, and evaluated model performance using accuracy and loss metrics.

Emotion & Sentiment Classification, *NLP Project (Python, Scikit-learn, TensorFlow)*
- Developed machine learning models (SVM, Random Forest, LSTM) for emotion and sentiment detection
- Applied text preprocessing and feature extraction using TF-IDF and Word2Vec; evaluated with accuracy and F1-score

Spam Email Classification Using PySpark, *Python, PySpark*
- Built a spam classification model using Logistic Regression and Naive Bayes.
- Implemented text preprocessing and TF-IDF feature extraction within a PySpark environment.

Big Data Lakehouse – Real-Time Customer Clustering, *Python, PySpark, Kafka, MinIO, Streamlit*
- Developed a real-time data pipeline using Kafka and PySpark for customer clustering.
- Visualized segmentation results through an interactive Streamlit dashboard.

Online Retail Analysis & Forecasting, *Python, Pandas, Scikit-learn*
- Performed exploratory data analysis to identify key sales patterns.
- Built a forecasting model to predict future sales trends.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Himpunan Mahasiswa Teknologi Informasi, 02/2025 – 02/2026
Internal General Secretary
- Managed and reviewed internal proposals and official documents for departmental approval.

ARA 6.0 – Annual IT Event, *General Secretary* 09/2024 – 04/2025
- Organized official correspondence, documentation, and administrative workflows for event execution.
- Maintained structured internal and external communication across multiple divisions.

Himpunan Mahasiswa Teknologi Informasi, 02/2024 – 02/2025
Secretary of Home Affairs Department
- Prepared proposals and managed departmental documentation.
- Coordinated internal meetings and administrative submissions.

ARA 5.0 - Annual IT Event, *Head of Liaison Officer* 09/2023 – 04/2024
- Led liaison division and coordinated communication with external stakeholders.
- Trained staff to handle professional communication and event support responsibilities.

OKKBK IT 2024 – Orientation Program, *Head of Events* 2024 – 2024
- Led event planning, execution, and cross-division coordination.
- Supervised team progress and ensured timeline alignment during program implementation.

CERTIFICATES & ACHIEVEMENTS

Intro to Data Analytics , *RevoU* 07/2025
Completed foundational data analytics training covering data processing and visualization.

Intro to Data Analyst , *Coding Studio* 07/2025
Participated in introductory data analysis training focused on basic analytics concepts.

Data Science Introduction , *MySkill* 07/2025
Gained introductory knowledge in data science workflow and analytical thinking.

Bootcamp Data Analyst with SQL & Python , *DQLab* 08/2025
Applied SQL and Python for data analysis, data cleaning, and business case problem-solving.

Bootcamp Machine Learning & AI , *DQLab* 08/2025
Learned fundamental Machine Learning concepts including supervised learning and model evaluation.

Bootcamp Data Analyst with Excel , *DQLab* 08/2025
Performed data analysis and reporting using Excel for business insights.

Google IT Support Professional Certificate , *Coursera* 02/2023
Completed foundational training in IT security, networking, system administration, and infrastructure services.

TECHNICAL SKILL

- **Programming Languages :** Python, Java, C/C++, JavaScript, SQL
- **Machine Learning & Data :** Scikit-learn, TensorFlow, Keras, Pandas, NumPy, Regression, Classification, Clustering, Model Evaluation
- **Big Data :** PySpark, Apache Spark, Kafka
- **Visualization & Dashboard :** Matplotlib, Streamlit, Excel, Google Sheets
- **Web & Application Development :** Vue.js, React.js, Next.js, HTML, CSS
- **Tools & Database :** MySQL, Git, GitHub, VS Code, Docker, Jupyter Notebook, Google Colab, Kaggle

SOFT SKILL

- Problem Solving
- Analytical Thinking
- Adaptability
- Communication & Cross-Team Collaboration

PUBLICATIONS

Mengoptimalkan Deteksi Intrusi Jaringan: Perbandingan SVM dan KNN Menggunakan Dataset KDD Cup 99 , *Madani Publisher* 2024
Keywords : Network Security, Intrusion Detection System, Support Vector Machine, K-Nearest Neighbors, Machine Learning},
