PROFILE

Information Technology graduate with hands-on experience across both **system development and data analytics** from supporting government service systems with **MySQL and RESTful APIs**, to turning raw business data into actionable insights for clients in manufacturing and pharmaceutical sectors. Skilled in **SQL, Python, Excel, Data Studio and Power BI**, with strong attention to data quality, consistency, and integrity practices essential for reliable reporting in operational, industrial environments. Backed by **proven leadership through multiple organizational roles**, and eager to contribute to digital transformation and **data-driven decision making**.

PROFESSIONAL EXPERIENCE

Kimia Farma x Rakamin Academy, *Big Data Analytics Project-Based Intern* 03/2026 – 04/2026

- Analyzed one-year transactional sales data using SQL, including joins and schema-level queries and Python to generate business insights on revenue trends, customer behavior, and product performance.
- Performed data preprocessing, data quality checks, exploratory data analysis (EDA), reporting, and dashboard development to support business monitoring and data-driven decision making.

Dinas Komunikasi dan Informatika Kabupaten Madiun 01/2025 – 03/2025
Developer Intern - System & Data Support

- Supported the development and maintenance of government service systems using MySQL databases and RESTful APIs while ensuring data consistency and system reliability.
- Collaborated with cross-functional teams in managing data integration and system workflows to improve operational efficiency and support digital public services.

Information Technology Department (ITS), *Assistant Lecturer - Enterprise Architecture* 02/2024 – 07/2024

- Assisted in teaching enterprise architecture concepts and guiding students in system analysis and problem-solving activities.
- Supported evaluation and technical discussions related to large-scale information systems and business process analysis.

EDUCATION

Bachelor's Graduate in Information Technology, *Institut Teknologi Sepuluh Nopember (ITS)* 2022 – 2026

- GPA : 3.70 / 4.00
- Relevant coursework : Artificial Intelligence, Data Mining, Machine Learning , Big Data, Statistical Analysis.

Science major, *SMA Negeri 1 Kauman* 2019 – 2022

- Grade : 87.89

COURSES

Bootcamp Data Analyst & Business Intelligence 03/2026 – 07/2026 *, Cerelates - CAMP Batch 4*

- Completed hands-on training in end-to-end data analysis, dashboard development, business intelligence, SQL querying, ETL, reporting, and data visualization using SQL, Python, Excel, PostgreSQL, DBeaver, Data Studio and Power BI through real-world business case studies.
- Presented analytical findings and dashboard insights through business presentations based on real-world case studies.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Himpunan Mahasiswa Teknologi Informasi, *Internal General Secretary* 02/2025 – 02/2026

- Managed organizational documentation and coordinated internal administrative workflows across multiple divisions.

A Renewal Agent 6.0, *General Secretary* 09/2024 – 04/2025

- Coordinated with multiple divisions to maintain organized workflows documentation, communication, and administrative processes.

Himpunan Mahasiswa Teknologi Informasi, *Secretary of Home Affairs Department* 02/2024 – 02/2025

- Prepared proposals and managed departmental documentation.
- Coordinated internal meetings and administrative submissions.

A Renewal Agent 5.0, *Head of Liaison Officer*

09/2023 – 04/2024

- Led liaison division and coordinated communication with external stakeholders.
- Trained staff to handle professional communication and event support responsibilities.

Orientation Program (OKKBK IT 2024), *Head of Events*

2024 – 2024

- Led event planning and cross-functional team coordination to ensure successful program execution.
- Managed project timelines, team progress, and communication during event implementation.

PROJECTS

Project Freelance - Dashboard Data Analyst, *Sales & Production Dashboard*

- Built two end-to-end Looker Studio dashboards (Sales & Production) by consolidating 19 relational tables, covering Rp291,3 miliar in revenue across 2.282 orders and 4.255 production orders for a manufacturing client.
- Delivered cross-functional business insights including customer revenue concentration, SKU margin disparity, and machine utilization gaps that informed data-driven follow-up actions across sales and production teams.

Kimia Farma BigQuery Analysis, *Project Based - Big Data Analytics*

- Analyzed transactional sales data using SQL and Python to identify customer purchasing behavior, revenue trends, and product performance for business insight generation.
- Performed data cleaning, preprocessing, data visualization, exploratory data analysis (EDA), and dashboard development to support business reporting and decision making.

Online Retail Analysis & Forecasting, *Python, Pandas, Scikit-learn*

- Conducted exploratory data analysis (EDA), reporting, and data visualization to identify customer behavior, sales trends, and business performance insights.
- Developed forecasting models using Python and Scikit-learn to support future sales prediction and business planning.

Big Data Lakehouse - Real-Time Customer Clustering, *Python, PySpark, Kafka, MinIO, Streamlit*

- Developed a real-time ETL data pipeline using PySpark, Kafka, and MinIO to process and transform business data efficiently.
- Visualized customer segmentation insights through an interactive dashboard to support business monitoring and analytics.

CERTIFICATES & ACHIEVEMENTS

- Bootcamp Data Analyst & Business Intelligence:** [🔗](#) Date: 2026-07
- AI Productivity and AI API Integration for Developers, Hacktiv8:** [🔗](#) Date: 2026-03
- Project-Based Internship, Rakamin x Kimia Farma:** [🔗](#) Date: 2026-03
- Bootcamp Data Analyst with SQL & Python, DQLab:** [🔗](#) Date: 2025-08
- Bootcamp Machine Learning & AI, DQLab:** [🔗](#) Date: 2025-08
- Bootcamp Data Analyst with Excel, DQLab:** [🔗](#) Date: 2025-08
- Google IT Support Professional Certificate, Coursera:** [🔗](#) Date: 2023-02

TECHNICAL SKILL

Data Analysis: SQL | Python | Microsoft Excel | Pandas | NumPy | Exploratory Data Analysis (EDA) | ETL | Data Warehouse | Data Quality

Database & Tools: MySQL | Google BigQuery | PostgreSQL | Git | GitHub | Docker | Jupyter Notebook

Programming & Query Languages: Python | SQL | Java | JavaScript | C/C++ | PHP (Laravel)

Business Intelligence & Visualization: Interactive Dashboard Development | Microsoft Excel | Microsoft PowerPoint | Power BI | Google Data Studio

Data Engineering & Machine Learning: PySpark | Apache Spark | Kafka | Scikit-learn | TensorFlow | Forecasting

SOFT SKILL

- Analytical Thinking & Problem Solving
 - Adaptability & Time Management
- Communication & Interpersonal Skills
 - Attention to Detail & Willingness to Learn

LANGUAGES

English
Professional Working Proficiency

Indonesian
Native
